

If you would like to store your project work in Nolop, please **label it with your name and today's date.**

Every Friday, we throw stuff that has been around for **more than a month** in the Limbo Bin by the front desk.

If you need to store stuff for longer than a month, just relabel it with a newer date.

Please do not do clever things like using a date a month before graduation. We're trying to share limited space equitably here.
